

26<sup>th</sup> March 2026

Dear Parents/Carers,

We are writing to inform you about additional **Year 11 Combined Science Foundation Intervention** taking place on Friday 10<sup>th</sup> April 2026, from 9:00am to 1:30pm in room 615 (Sixth Form Block). There will be a choice of two different sessions:

**9:am to 11:am – Limited to 30 students**

**11:30am to 1:30pm – Limited to 60 students**

This intervention has been arranged to support students in their final preparations for the upcoming GCSE examinations.

Students are welcome to bring their own snacks or drinks, however, we kindly ask that any food brought on site does not contain nuts or other common allergens, to ensure the safety of all students.

It is important that students fully engage with the sessions. Any student who is not engaging appropriately will be asked to leave.

We appreciate your support in ensuring your child attends this valuable intervention and benefits fully from the additional preparation time. If you would like your child to take up this opportunity, please reply by email by no later than Friday 3<sup>rd</sup> April, by emailing the science information email ( [scienceinfo@theappletonschool.org](mailto:scienceinfo@theappletonschool.org) ).

Unfortunately, we will have to limit places for each session, however if your chosen session is full, we will endeavour to place students on an alternative session. Any students not attending will be able to access the revision materials on Google classroom, next term.

If you have any questions, please do not hesitate to contact me.

Yours sincerely,

Mrs C Bell, Head of Science  
[cbell@theappletonschool.org](mailto:cbell@theappletonschool.org)

Headteacher: Sarah Cox, BA (Hons)
